

**Jute sack bags, also known as gunny bags, are strong, eco-friendly packaging bags made from natural jute fibers. Widely used for packing agricultural and industrial goods, these bags are biodegradable, breathable, and moisture-resistant, making them ideal for storing grains, pulses, sugar, coffee beans, potatoes, and other bulk commodities.**

### **Key features :**

- **Made from 100% natural jute fiber**
- **Durable and reusable**
- **Breathable fabric to prevent spoilage**
- **Biodegradable and environmentally friendly**
- **Available in various sizes and GSM options**
- **Can be customized with company logo or print**

### **Common features :**

- **Agricultural packaging (rice, wheat, grains, potatoes, coffee beans, pulses)**
- **Cement and sand packaging**
- **Animal feed or fertilizer storage**
- **Construction and transport industry uses**
- **Sandbags for flood control or erosion prevention**
